British Force Near Ostend. The fighting along the great line ex-ending almost from the North sea to the German province of Lorraine con-inues with indefinite results, for the actual operations in the northern sec-tion of France are not being divulged to any extent by the official statements issued by the French war department, where the British reinforcements have been sent is a matter of conjecture, but it is believed that a considerable force is already in the neighborhood of

Recruiting active in England.

Recruiting in England is again being actively pushed, for the need of men is recognized and the requirements for service in the infantry have been lowered for the purpose of insuring a large supply of recruits. Similarly, Great Britain is taking precautions against raids over English towns by German airships, this latter action probably resulting from the recent attacks or British by aeroplayers.

PRICES OF FOODSTILES

Notwithstanding Suspension of Im-

Venice, Oct. 12, by way of Paris, 6.36 p. m.—Advices from Vienna state that although the import duties on foodstaffs have been suspended by the Austrian government, prices thus far have shown no sign of decreasing. On the contrary in some instances prices are still advancing. The cost of food is much higher than it is in Germany. The newspapers openly accuse the The newspapers openly accuse the state of the strict neutrality of the United States not to be the bearer of military messages to any of the belligerents. The Germans insisted that all other means of communication had failed. The Spanish minister, who was in conference with Mr. Whitlock when the representations were made, finally decided to send the Spanish naval attache to Antwerp with the netification.

The newspapers openly accuse the Austrian land proprietors of endeavor-ing to make the utmost of the war situation regardless of the needs of the public. Much irritation is exhibited toward the authorities because they

ent an utterly unjustifiable increase i the prices for cattle. It is now declared that the fixing of maximum prices coupled with measures compelling the farmers to bring their grain to market instead of hoarding it, means only the prevention of a further advance in the already ex-orbitant food prices. The women of orbitant food prices. The women of Vienna are protesting against the yractice adopted by the bakers of making bread loaves of only two-thirds the ordinary size. It is also charged that the quality of white bread has deteriorated greatly, evidently because of the admixture of barley and meal.

The manufacturers of Austria are beginning to complain of the shortage of raw material and are demanding that the government suspend the imof raw material and are demanding that the government suspend the import duties on raw iron, machinery and tools and also demand that maximum prices be fixed for timber, petroleum and wool and a reduction made in the tax on industrial enterprises.

The papers of Vienna publish laudatory obituaries on the late King Charles of Rumania. They express the conviction that Rumania will not be induced by Russia to engage in a policy of adventure which not only would compromise her vital interest, but lead eventually to her destruction.

ning.

General Eduardo Hay, one of the men who opposed the acceptance of Carranza's resignation at the Mexico City convention, made an impassioned speech, urging the adoption of a resolution calling on General Carransa to release all political prisoners as General Villa had, done. He was enthusiastically applauded as he suggested that the language of the resolution be changed from a request to an order. He said that acts and resolutions of the convention should be regarded as orders upon all chiefs, including Carranza. The convention passed the resolution in that form.
